EXECUTIVE SUMMARY

(i) DATA HIGHLIGHTS: 1995 TO 2003

Manitoba merchandise exports to the rest of the world were $8,836 million in 2003, up 62.0% from the 1995 level of $5,456 million. Canada's total merchandise exports during the same time frame increased 43.7%, from $246,390 million in 1995 to $353,997 million in 2003. Between 2002 and 2003, Manitoba's foreign exports decreased by 6.1% while Canada's foreign exports decreased by 3.1%.

Manitoba's merchandise imports from other countries grew from $6,016 million in 1995 to $9,959 million in 2003, an increase of 65.6%. Between 2002 and 2003, Manitoba's imports decreased by 0.2%.

Manitoba's agricultural exports rose from $1,464 million in 1995 to $1,748 million in 2003, an increase of 19.5%. Between 2002 and 2003, Manitoba's agricultural exports fell $91 million or 4.9%: the exports of live bovine animals dropped $167 million, probably due to BSE (mad cow disease) closing the United States border in May, 2003. Manitoba's non-agricultural exports rose from $3,992 million in 1995 to $7,088 million in 2003, an increase of 77.5%. Agricultural exports as a percent share of total Manitoba exports changed from 26.8% in 1995 to 19.8% in 2003 while non-agricultural exports as a percent of total exports rose from 73.2% in 1995 to 80.2% in 2003.

Manitoba's major trading partner is the United States. Exports to the United States grew from $3,957 million in 1995 to $6,938 million in 2003, an increase of 75.3%. Exports to non-U.S.A. countries during that same time period went from $1,499 million to $1,898 million, an increase of 26.7%. Consequently, the United States' percent share of Manitoba exports has risen from 72.5% in 1995 to 78.5% in 2003. Four of the last nine years have produced double digit annual growth in export trade with the United States, averaging a compounded 8.8 percent per year. Exports to the U.S.A. for 2003 were 8.8% lower than during 2002, while imports from the U.S.A. were down 1.9% during that same time frame.

While the overall growth of Manitoba exports was 62.0% between 1995 and 2003, the export growth to NAFTA countries was 76.3% and accounted for 80.3% of all foreign merchandise exports in 2003. Manitoba exports to Pacific Rim countries increased by 20.3% between 1995 and 2003 and accounted for 10.4% of total exports in 2003. Exports to NAFTA countries decreased by 8.4% from 2002 to 2003 while exports to Pacific Rim countries decreased by 3.6% during this same time period. Exports to other areas (E.U., Middle East, Africa, Latin America and other areas) increased by 16.8% between 2002 and 2003.

Manitoba manufacturing exports grew from $3,158 million in 1995 to $6,024 million in 2003, an increase of 90.7%. Manufacturing exports to the U.S.A. rose from $2,706 million to $5,200 million during that time frame, a 92.2% increase. Manufacturing exports to the U.S.A. accounted for 86.3% of Manitoba's total manufacturing exports in 2003. Manufacturing exports accounted for 68.2% of total exports during 2003, while manufacturing exports to the U.S.A. accounted for 75.0% of all exports to the U.S.A.. Manufacturing exports to all countries declined by 1.3% between 2002 and 2003 while manufacturing exports to the United States fell by 1.7%.

For every 100 dollars of merchandise imported into Manitoba in 1995, 90.7 dollars were exported: 2003 saw 88.7 dollars exported for every 100 dollars imported. Similarly, the export to import merchandise ratio for trade with the U.S.A. went from 75.4 in 1995 to 84.3 in 2003.

The following twelve charts highlight Manitoba's trade performance over the last nine years. Generally, growth rates over the last 1, 3, 5 and 8 years are provided.

INTRODUCTION:

This report has been prepared by the Manitoba Bureau of Statistics (MBS) as part of its economic statistics program. Its purpose is to provide information for Manitoba on the importance and impact of international merchandise trade.

This publication provides international merchandise trade data by country, commodity and industry. The information is from Statistics Canada's International Trade Division. Merchandise trade data presented covers the 1995 to 2003 calendar years.

Users should be aware that the export data is on a "province of origin" basis, while the import data is on a "province of clearance" basis. Therefore, a significant quantity of imports from other countries are not counted as they are cleared through custom ports in other provinces and then shipped to Manitoba (MBS would count these as interprovincial imports). This implies that the trade balances calculated for individual countries could overstate Manitoba's actual position.

All commodity data presented in this report are based on the Harmonized System (HS) which was adopted for both exports and imports in 1988.

The Manitoba Bureau of Statistics has available additional detailed information which can be supplied to interested users on a cost recovery basis. Export/Import information that can be provided includes:

i) individual commodities for specific countries
ii) individual commodities by country (volume and dollar value) at the 4, 6, 8, or 10 digit HS level
iii) commodities by country for specific industries or sectors.

Trade information is also available in **MBS Trade**, an information system that provides the top 20 commodity exports or imports for an individual country and 25 commodities for each US state or trading area. Access to this system is available on a subscription basis.

For further information regarding MBS Trade or custom requests, please contact Marcel Chartier at (204) 945-2991.

NOTE TO USERS:

This publication contains the revised trade information for the 2000 to 2003 period. These are the most current numbers available from International Trade Division. The 2001 to 2003 information is subject to further revision in February, 2005.

The presented export information is as released by Statistics Canada. MBS has made no revisions to Statistics Canada's cereal grains, oil seeds or crude petroleum export values for Manitoba. MBS adjusts the value of exports for these commodities in its Manitoba Economic Accounts. These adjustments are undertaken to better reflect the value of the foreign export of these commodities to the provincial economy.

In this publication, the MBS has made adjustments to the import statistics released by Statistics Canada. Firstly, adjustments have been made on the 1997, 1998, 2001, 2002 and 2003 aircraft imports from France to better reflect Manitoba's true share of these imports, which are being used throughout Canada. The second adjustment is that the MBS import value excludes commodities classified as "Imports from Canada".

Due to valuation issues, MBS has also made revisions of Coin (HS 7118) exports to the United States and Articles of Copper, nes (HS 7419) imports from the United States for the 2000 calendar year. The $898.9 million reduction in Coin exports translates to a 9.4% reduction in total exports for 2000. Similarly, the $1,340.3 million reduction in Articles of Copper, nes imports translates to a 12.5% reduction in total imports for 2000.
